What we offer

▸ **Value Plus Internet Leased Line 1:4 ILL**

25% dedicated & 75% shared port bandwidth ranging from 2Mbps to 100Mbps

Fiber To The Home (FTTH)

▶ **What is Fiber to the Home?**

Fiber to the home is a NGN (Next Generation Network) technology where a single fiber can give you Voice, Video Data, Analog Cable TV, CCTV, DTH, Intercom etc. FTTH is relatively new and fast growing method of providing higher bandwidth speed to consumers and businesses, and thereby enabling more robust any kind of services.

Fiber To The Home (FTTH)

▸ **Advantages with FTTH**

Fiber supports ultra high bandwidth & multiple services over single fiber optic network.

Single fiber to the home gives Voice, Video, Data, Analog CATV, DTH, IPTV, HDTV, CCTV, Intercom, VOIP, VOD etc

Future proof Next generation technology.

Unlimited bandwidth/services with zero maintenance.

Managed network hence high security.
